Work experience

New to the industry, in other areas I have such experience as:
- economist (planning and economic department)
- sales manager
- delivery point administrator

About myself

I completed Data Analyst course in Karpov.Courses school. As a result, I acquired all the necessary basics to work in this field. I aspire to start a career in the industry and apply the acquired knowledge in practice.

I am interested in working with data, but am able to work in a team and find common ground with colleagues and clients.

About me in a few words:
- interested in developing within the industry
- eager to learn
- responsible
- proactive
